Why KGL?

There are many lakes in Kashmir and then are Great Lakes of Kashmir! These are very high altitude lakes, sitting above 12000 ft, in the Himalayas. Kashmir Great Lakes(KGL) trek is undoubtedly the most beautiful trek in India. You climb rocky mountains with endless glaciers melting into gushing streams, walk through vast green meadows with sheep lazily grazing in them and colourful wild flowers splashed all over the trail. The Great Lakes Trek expedition is no walk in the park. Days, steep mountain passes, and altitudes approaching 4190m demand a sure-foot and a good amount of physical and mental fitness.

A 5-star rating does not do these people justice. With them, I had the best trekking experience I could have hoped for. I went for the Dayara Bugyal trek with them, and I mean it when I say it, these people treat you like family. Our trek leader Mukesh watched out for us at every step, and ensured that all of us felt comfortable throughout our journey, which was all the more important, considering there were 2 girls in our group. All the arrangements were taken care of in a very efficient manner, be it regarding accommodation, or providing delicious meals and snacks during our homestays, giving us no room for any kind of complaints. All in all, The Searching Souls helped me create a pleasant memory, one that I will cherish for all my life. Looking forward to more adventures with you guys in the near future!

I recently went on Kedarkantha trek with searching souls !! It was the most endearing experience which would last a lifetime. Well organized, made easy to accomplish, great company and lively environment. Also to mention great food and personal attention to all the trekkers. Kudos to Debashish Sir!! Strongly recommended!!

Professionalism was invented by people like these, everything about them was well calculated and it clearly shows that someone took their time to put things together.

I was extremely impressed about how they carried themselves. Deeply organised. If you have experience in hiking or an amateur like me they have tailored themselves to suit the needs of everyone on a personal level.

Devasheesh, was our trek leader. I learnt so much from him. He is very composed, always on time and represents the values that the company stands for. Being a foreigner, I didn't feel at all different or left out in any way. It was my first time with them and I'm definitely going back.

I had the best experience. These guys deserve a platinum!

If you don't like treks, meet these amazing people, "The Searching Souls". I guarantee that you will become a trekking enthusiast by following their method of training.

This was my first solo winter trek so far and I am lucky to find an excellent team. Their helpful nature (carrying luggages - when we got stuck in Lohajung due to heavy snowfall) and their hospitality touched me from day one. His planning and motivation to trek was fantastic. The overall organization, food quality, campsite, team members and highly experienced guides (like Balli Bhaiya) were unexpected for me. For the first time ever I realized that Maggi is not the only option on the mountain while trekking 😊.

The entire experience was simply amazing. The boys took very good care of us. All aspects of the trip, the logistics, the delicious food and the stay was hassle free. The trek leaders had very good knowledge about the place. They were very patient and were with each and every one of us when we needed some motivation and made sure no one was left behind.

Thank you Devasheesh and Vishal for making this the best trek debut for me. Looking forward to more such adventures with you. You guys are the best!

About Us

At Searching Souls we intend to encourage people, to take out time from their busy lives and join us on a journey of self-exploration. It's a quest within, the finding of answers to some unasked questions.

We have spent 25 years of life and we must say it has been a remarkable journey so far. Down the memory lane we rejoice many things and we regret few of them. There comes a time in every individual's life when they question their existence, i.e. the true purpose of life. For some it happens sooner and for some at a very later stage.

For us the answer is travel. It gives us time to think, to learn new things, to meet different people and understand different perspectives and finally introspect to grow. It is said that the world is a book and those who do not travel read only one page. Everybody needs such a break often and it will be our pleasure if we can be a catalyst in person's journey. Along the journey meet new people, make friends, and make stories and the most important memories.

There are 365 days in a year multiply it with the number of years you have lived, it gives a huge number we are sure.

But how many of those do you remember, only a few. We want to add to that little no, which makes a big difference in your lives. Let us do the Small things which count big and stay forever.
