"One who wiped out all the diseases, truly and constantly, One who discovered the guidelines for (good) health, One who uncovered the hidden nature of medicinal plants, I, forever, bow to the God Dhanwantari"

Dhanteras, the first day of Diwali, is celebrated to pray to Lord Dhanvantari, whom Hindus see as the divine manifestation of a medical doctor.

On this auspicious day, Hindu Swayamsevak Sangh, USA (HSS) commends the immense contribution by all the healthcare professionals. Your contributions towards the wellbeing of human beings are exceptional. Your continuing efforts fighting the ongoing pandemic that humanity faces in modern times is much appreciated.

HAPPY DEEPAWALI

We wish this Diwali will bring joy, health, and prosperity for you and your family.

With warm regards,
